

# Go Away

Celeste Buckingham

There's a reason we don't hang out no more  
You've changed since I left this house and this home  
This house ain't no home, uh  
This house ain't no home  
You tried my patience, you kept your mouth shut  
Left my heart broken, no words are enough  
To mend what you done, uh  
To mend what you done, so...

Go away, leave me with myself  
Go away, don't need this hell, so  
Go away, just go away, now  
Go away, now, go away  
Go away, leave me with myself  
Go away, don't need this hell, so  
Go away, just go away, now  
Go away, now, go away

You know our love was killin' me  
But you took advantage of me anyway  
And now you're just wishin' you did things differently  
You did things differently  
You know our love was killin' me  
But you took advantage of me anyway  
And now you're just wishin' you did things differently  
You did things differently, differently  
You did things differently, differently  
You did things differently, differently  
You did things  
You're just wishin' you did things differently  
You did things differently, differently

Don't know how much more, much more I can take  
Makin' me sick in my, sick in my brain  
I'm sick in the brain, yeah  
I'm sick in the brain  
You got me twistin' myself out of shape  
Tryna adjust to your conceited ways  
Why you in my way? Yeah  
Why you in my way? So...

Go away, leave me with myself  
Go away, don't need this hell, so  
Go away, just go away, now  
Go away, now, go away  
Go away, leave me with myself  
Go away, don't need this hell, so  
Go away, just go away, now  
Go away, now, go away

You know our love was killin' me  
But you took advantage of me anyway  
And now you're just wishin' you did things differently  
You did things differently  
You know our love was killin' me  
But you took advantage of me anyway  
And now you're just wishin' you did things differently

You did things differently, differently  
You did things differently, differently  
You did things differently, differently  
You did things  
You're just wishin' you did things differently  
You did things differently, differently

Screw you, yeah, ain't got time for these  
These feelings, why you gotta be hatin' on me for me?  
Know what I said, I always say what I mean  
Why you gotta go and ruin everything?  
Why you, yeah, ain't got time for these  
You used to swear you gotta be all over me for me  
Know what I said, and always say what I mean  
Why you gotta go and ruin everything?  
Go ahead, then, go now  
I don't want you 'round no  
It's enough that you keep comin' back like it ain't no thing  
Go ahead, then, get out  
I don't wanna know how  
You keep crawlin' in  
Despite me sayin' I want you to, to

Go away  
Go away  
Go away, just go away, now  
Go away, now, go away  
Go away  
Go away  
Go away, just go away, now  
Go away, now, go away

You know our love was killin' me  
But you took advantage of me anyway  
And now you're just wishin' you did things differently  
You did things differently  
You know our love was killin' me  
But you took advantage of me anyway  
And now you're just wishin' you did things differently  
You did things differently, differently  
You did things differently, differently  
You did things differently, differently  
You did things  
You're just wishin' you did things differently  
You did things differently, differently

Baby  
When did this get so crazy?  
Why you be sayin', "Maybe"?  
I don't like this, it's too messy  
Too crazy  
But, baby  
When did this get so crazy?  
Why you be sayin', "Maybe"?  
I don't like this, it's too messy  
Too crazy for me
