

# I'm Here

Celeste

How do you still remember  
My mind and memories young  
I want you January to December  
Another trip around the sun

A lifetime of sunshine  
Enough time to know that you're, you're

Keeping your eyes on me  
Keeping your eyes on me  
No doubt  
Dressing my wounds for me  
Giving me courage if I fall down  
Keeping you close to me  
I know you'll be here when I look 'round  
Keeping your eyes on me

These fears  
No longer weapons  
These tears are just tears  
Not longing for direction  
Now that you're here

When my shadow finds perfection  
Only then you're truly mine  
Everyday till then I'll have questions  
Must be a fault in my design

A lifetime, a life line  
Enough time to know that you're

Keeping your eyes on me  
Keeping your eyes on me  
No doubt  
Dressing my wounds for me  
Giving me courage if I fall down  
Keeping you close to me  
I know you'll be here when I look 'round  
Keeping your eyes on me

These fears  
No longer weapons  
These tears are just tears  
Not longing for direction  
Now that you're here
