

She's My Sunshine

Celeste

She don't wanna see me look down
She's the one to help me up when I'm falling
See me rise now, see me rise now
And every time my head's in the clouds
She saves me from myself
Spin the world round, spin it right round

She's my sunshine, oh
Like the morning shining through my window
She's my sunshine, woah
Like the morning shining through my window

Who I am without her around?
She's the one to tell me who I am in the morning
See me rise now, see me rise now
And when my days are filled with doubt
She shows me the way out
She spin the world round, spin it right round

She's my sunshine, oh
Like the morning shining through my window
She's my sunshine, woah
Like the morning shining through my window

Here she comes (If I go wrong, well, she shows me)
Here she comes (She'd never ever ever ever leave me lonely)
Here she comes (The only thing I need, here she comes)
Here she comes (If I go wrong, well, she shows me)
Here she comes (She'd never ever ever ever leave me lonely)
Here she comes (The only thing I need, here she comes)

She's my sunshine, oh
Like the morning shining through my window
She's my sunshine, woah
Like the morning shining through my window

What do I know?
Tell me, what do I know?
Just one thing, one thing, one thing
Let me tell you one thing
She is my sun
She won't forget I'm here
High when my day disappears
