

# Christmas Eve

Celine Dion

Snow falling gently on the ground  
'Tis is the night before  
And in my heart there is no doubt  
That this is gonna be  
The brightest holiday  
'Cause here you are with me  
Baby, baby, I can't wait

To spend this special time of year with someone who  
Makes me feel the special way that you do

Walkin' with you in a winter's snow  
Kissin' underneath the mistletoe  
People smiling everywhere we go  
It's Christmas Eve and they can see we're in love

Ooh, you make the season bright  
With the lights reflecting in your eyes  
All my dreams are comin' true tonight  
It's Christmas Eve and I can see we're in love

We'll stay up late tonight  
Decorate the tree  
Just look into my eyes  
And I will tell you truthfully  
That I don't need no Santa Claus  
To hear my Christmas wish  
I got you in my arms  
And what could be a better gift  
Than to spend my very favorite time of year  
With the one I really love so near, Oh Yeeeahhh

Walkin' with you in a winter's snow  
Kissin' underneath the mistletoe  
People smiling everywhere we go  
It's Christmas Eve and they can see we're in love

Ooh, you make the season bright  
With the lights reflecting in your eyes  
All my dreams are comin' true tonight  
It's Christmas Eve and I can see we're in love

And the bells are ringing when I hear you say  
We'll do it all again on Christmas Day  
I can't wait

Walkin' with you in a winter's snow  
Kissin' underneath the mistletoe  
People smiling everywhere we go  
It's Christmas Eve and they can see we're in love

Ooh, you make the season bright  
With the lights reflecting in your eyes  
All my dreams are comin' true tonight  
It's Christmas Eve and I can see we're in love

Walkin' with you in a winter's snow

Kissin' underneath the mistletoe  
People smiling everywhere we go  
It's Christmas Eve and I can see we're in love

Ooh, you make the season bright  
With the lights reflecting in your eyes  
All my dreams are comin' true tonight  
It's Christmas Eve and I can see we're in love
