

# If I Were You

Celine Dion

She can feel you  
Drifting far away  
But she can't see through  
What you do not say  
Take a step back  
Don't lose your ground  
Remember how you felt before  
And if you care about her  
Show her that you're sure

If I were you  
My prized possessions  
Would be the ones I'd hold so close  
'Cause when you lose your love  
You lose what means the most  
If I were you  
I'd hold affection

Higher than any star in sight  
Take this to heart  
And you'll never part  
These are the things that I would do  
If I were you

Simple pleasures  
The hardest to be found  
Can't be measured  
'Till they're not around  
Maybe she'll go  
Maybe she'll stay  
But she'd rather go than fade away  
Sometimes the sweetest sorrow  
Is the saddest fate

Take a step back  
Don't lose your ground  
Remember how you felt before  
And if you care about her  
Show her that you're sure

If I were you  
I'd hold affection  
Higher than any star in sight  
Take this to heart  
And you'll never part  
These are the things that I would do  
If I were you  
Take this to heart  
You'll never part  
These are the things that I would do  
If I were you
