

# Naked

Celine Dion

Under this midnight sky  
With you here by my side  
There's nothing that I could hide  
You know me better than anybody else

All of myself revealed  
There's nothing I could conceal  
My soul is yours to steal  
Take me wherever you want to baby

Baby I'm naked  
So naked with you  
Feels like the first time  
I'm trembling, shaking  
My heart's overtaken  
Feels like I'm falling  
All over again  
Baby come and take me  
'cause I'm trembling shaking  
My heart's almost breaking  
Baby I'm naked with you

Baby when you're away  
It's almost like I'm afraid  
I only wanna stay  
Caught up in these stolen moments

So let's lose ourselves in the night  
Forget the world for a while  
Make love till the morning light  
Take me wherever you want to baby

Baby I'm naked  
So naked with you  
Feels like the first time  
I'm trembling, shaking  
My heart's overtaken  
Feels like I'm falling  
All over again  
Baby come and take me  
'cause I'm trembling shaking  
My heart's almost breaking  
Baby I'm naked with you
