Show Some Emotion

Celine Dion

I've tried my best for so long To break down these walls But you build them strong So I stand here waiting, wondering why Oh why

Why you don't give a little bit Break down and give a little bit

Show, show some emotion Open, open your heart, ooh Set free an ocean Only a feeling can save us now

You say you've been hurt Well you're not alone As you race through this life what you Keep to yourself Can turn you to stone All it would take is one kind word To be heard

Come on and give a little bit Try to forgive a little bit Show some emotion Open, open your heart Set free an ocean Only a feeling can save us now

Show some emotion Open, open your heart Set free an ocean Only a feeling can save us now

Show some emotion Open, open your heart Set free an ocean Only a feeling can save us now
