

# Insomnia

Cellar Darling

One, two, three, forever  
I will not sleep, never  
Five, six, seven, hate, lover  
I will wait forever

Forever  
You and the void

(One, two, three, forsaken)  
(Five, six, seven, fate shaken)

Close to freedom now  
Douse me with sound

You are what's constant, everflowing  
You are the water to my fire

And I will not sleep until you hold me  
For I cannot dream anymore  
Of you and your absence so haunting  
I won't sleep, I won't dream anymore

One, two, three, forsaken  
Insanity awakens  
Five, six, seven, fate shaken  
Sanity forsaken

Close to freedom now  
Douse me with sound

You are what's constant, everflowing  
You are the water to my fire

And I will not sleep until you hold me  
For I cannot dream anymore  
Of you and your absence so haunting  
I won't sleep, I won't dream anymore

You are the water to my fire  
You are the answer in search of the void

Stop

Void  
Let your kingdom call my name  
Death  
Can you see me searching for you?

And I will not sleep until you hold me  
For I cannot dream anymore  
Of you and your absence so haunting  
I won't sleep, I won't dream anymore
