Celldweller

Ghost in a place of fear  
dreams and memories are decaying here

Cold constantly turning sphere  
where shadows gather and quickly disappear

Stepping through time and our minds are always focused on our prey  
Our Spirits gone recon  
Our former lives have fallen far away

Ghosts  
See the face of Fear  
To think they know their enemy  
will make you stronger

Ghosts  
Recreate the Fear  
to think its only in their minds  
will make them weaker

We will vindicate

Ghost in a place of fear  
The screams of enemies  
are replaying here  
Old phantasms perserver  
Til threats to innocence  
no longer interfere

Stepping through time and our minds are always focused on our prey  
Our Spirits gone recon  
Our former lives have fallen far away

Ghosts  
See the face of FEAR  
To think they know their enemy  
will make you stronger

Ghosts  
Recreate the Fear  
to think its only in their minds  
will make them weaker

We will Vindicate  
We will  
We will

Ghosts  
See the face of FEAR  
To think they know their enemy  
will make you stronger
