

## Basic Black

### Cemetery

Did you lose your way or did you lose your mind  
A blacklight rush, blacklight fever, keep it on the hush  
There's no ignition  
Just constant repetition

Basic black and darker gray  
Hold that thought then come what may  
It's so unreal, what your heart can't feel  
Basic black and darker red  
All God's children wind up dead  
It's so damn real, what your veins reveal

Sample your final breath, the end  
This is a game of death my friend  
So pyrotechnic, still a sceptic ?  
This is the end  
In here we're all insane  
In here we all discovered pain
