Centhron

Where is my father gone?

The sky in blue above
The ruffling waves beneath
No god unto this voyage
No fucking holy ghost

There is a cross inside
Like meathooks in the flesh
Inner pain born by hate
Burn united states

Fire - in the west
Hail the bloodfeast
Away, far away it slips
U-166
Fire

Cry for the german knights
Into an idiotic system
Watch the thousand graves
Beware the past, remember the dead
Fire [2x]

Fire - in the west
Hail the bloodfeast
Away, far away it slips
