

You put on your best fit to the club tonight
You're trying to find someone to take you home and show you love
If nobody else will, then I will
If nobody will, I will
Your pussy shaved, you cleaned your bedroom just in case
And you ain't fucked in couple months, tonight you're trying to misbehave
Is that how you feel?
Is that how you feel?

Without sounding too perverted, close my eyes, I see you naked
Your looks come from your mama, daddy money got that bracelet
But you're acting bougie like it was you who fucking paid
Go and drop that bomb and watch that shit go up in flames
You make me feel young again, I don't wanna grow up
I don't even know her, fuck until my dick don't go up
Moving your waist, we pick up the pace and make that shit go slower
Just give me the date, and pick a place, and go pack the Rimowa

We can go to Phuket if you fuck with this
Tick a couple countries off your bucket list
I'll hold it down, you ain't gotta worry 'bout no other bitches
Dive in deep and you gon' feel it where your stomach is

You put on your best fit to the club tonight
You're trying to find someone to take you home and show you love
If nobody else will, then I will
If nobody will, I will
Your pussy shaved, you cleaned your bedroom just in case
And you ain't fucked in couple months, tonight you're trying to misbehave
Is that how you feel?
Is that how you feel?

You didn't put on YSL just to go bed all by yourself
You got your coochie shaved just in case you find the right male
Said your body count's twelve, but your pussy tight still
I'm mature babe, you know real recognise real
You put on your heels and hit the club, I'm outside, I'm on your strip
You got hella options waiting on you, take your pick
If you fuck with someone else, you're not my girl, I won't be pissed
If I'm awake and I ain't taken, hit my line, I'll give you dick
If they won't, I will
You give me the chance and I can change your title
Let me see you arch it, let me break your spinal
Put you on the gram and make your page go viral
Alright

You put on your best fit to the club tonight
You're trying to find someone to take you home and show you love
If nobody else will, then I will
If nobody will, I will
Your pussy shaved, you cleaned your bedroom just in case
And you ain't fucked in couple months, tonight you're trying to misbehave
Is that how you feel?
Is that how you feel?
