

Transition

Central Cee

Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you
Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you
(Ay, Tweeko mixed this y'know, it sounds cold)
(Twenty Fifty States, focus, set the game)

I made the transition, I was in the trap itchin'
Now I'm in a better position, 'cause I got the ambition
They tried to dismiss it, my bitch way too explicit
You get out what you put in, real ones will know the feeling
Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you
Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you

Fifty shades of grey
28 days in the T (trap)
Know when to bathe my skin, I'm with the cats and fleas
None of my cell smoke weed, it's straight line MD
See blue lights and flee, if I get caught then free me

I need good energy, B right on my brief
What's with the jealousy? My boys ain't trap or tease
Family all I need, where's the pharmacy
Now I cannot sleep, this lean is on repeat

I made the transition, I was in the trap itchin'
Now I'm in a better position, 'cause I got the ambition
They tried to dismiss it, my bitch way too explicit
You get out what you put in, real ones will know the feeling
Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you
Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you

Seen you makin' decisions, now I'm in a different division
Cent'ch, I'm self sufficient
Started in the T, now I'm winning
Oh, what a wonderful feeling
Broski, he still be whipping
Frostbite, get out the kitchen
He need a dietician

And bless, met Jah when 16, and now he still in prison
They were hating on me then, and now they still bitchin'
I was broke, and he was broke, I came up and you still is
Now tell me what's the difference?
I put in work, you didn't

I made the transition, I was in the trap itchin'
Now I'm in a better position, 'cause I got the ambition
They tried to dismiss it, my bitch way too explicit
You get out what you put in, real ones will know the feeling
Once we half to halfway, smoking on the paranoid
Go secure the bag, boy, I ain't got the time for you
Once we half to halfway, smoking on the paranoid

Go secure the bag, boy, I ain't got the time for you

Only God I fear (bang)

Gotten out of here, yeah

My young G do it for free, I got a volunteer

Yeah, the trap is volatile, but I got out of it

Shorty know I'm talkin' facts, so she wan' learn the legend

Only God I fear (bang)

Gotten out of here, yeah

My young G do it for free, I got a volunteer

Yeah, the trap is volatile, but I got out of it

And she know I'm talkin' fast, she wan' learn the legend
