

Out My Face

Ceraadi

We not here for long time
We only here for a good time
We can keep it on the down low
It won't hurt em what they don't know
Can't explain what it feels like
I know it's wrong but shit, it feels right
Creatin memories like a photo
Catchin feelings that's a no no no no

If we stay
In this place
Just one mistake
Can easily turn into something more
And that not what we came for

We can do this my way
At my pace
Then I'll say
Maybe one day it's something we can explore
But that's not what we came here for

Away we go
Day light come now
It's time for me, yeah, to go home
No, I cannot stay with you

It's not the right time, but it's the right time
I know you ready and you willin and that's likewise
Not tryna facetime, show me a great time
Don't need no wedding band I'm makin bands
Get the fuck out my face

Fuck out my face
I ain't got time for this
Soon as I'm gone
Blow up my phone
I'm declining shit
Let's hit the club
Tryna get one up
These niggas be cryin and shit
What I look like lettin' a mark ass bum ass nigga come'n hit, you serious?
First of all, I'm the coach you water boy
Only time I call you is when I need you, never thirsty tho
Never getting played, I makes the plays, I get the play, what can I say
Don't hate me baby, just gon' respect my game

Cuz if we stay
In this place
Just one mistake
Can easily turn into something more
And that not what we came for

We can do this my way
At my pace
Then I'll say
Maybe one day it's something we can explore
But that's not what we came here for

Away we go
