Ceraadi

There's many ways that I could tear you apart
Or better yet click clack, I'm the trigger let's start
You a dub, a once was, and I'm mad I met you
You was community service, so glad I left you

Putting my pride on your side of the bed
Couldn't address how I lived when you left
Now I'm sober of cardiac arrest
Had to raise the bar one time
No chasing you again

Bonded to you, I'm not, yeah, yeah
But you keep throwing cheap shots on the gram, yeah, yeah
Then find the nerve to slide in my DMs

Boy, I feel no way
To leave yo ass on read
But it's when you call
To try get in my head
You made the same mistakes
Don't think it's a test
Fuck whatever you want
Love I'm good and I'm blessed

Cuz every time you call I hit the red button
The red button
And every time you call
I hit the red button
The red button
Every time you call
Don't call me at all
Cuz every time you call I hit the red button
The red button

Aww man, here you go keep hittin my line
I really thought I blocked your number dummy why you keep trying
You prolly in bed right now, yikes, whining and crying
You really tried it, you better put your moms on your speed dial
I let you your baggage go - now it's shopping sprees, new baggage on me
Yes yes, like CC, baguettes like bling bling, new ting like Rih Rih
Now I'm Iced out where my heart should be, I'm cut throat honestly

Boy I feel no way
To leave yo ass on read
But it's when you call
To try get in my head
You made the same mistakes
Don't think its a test
Fuck whatever you want
Love I'm good and I'm blessed

Cuz every time you call I hit the red button
Red button
The red button
And every time you call
I hit the red button
The red button

Every time you call
Don't call me at all
Cuz every time you call I hit the red button

It's a new number every time, yeah, yeah
Got your old ones as blocked lines, yeah, yeah
Thinking you should read in between them, yeah, yeah
I'll never call back, call back, call back, call back

Cuz every time you call I hit the red button
Red button
The red button
And every time you call
I hit the red button
The red button
Every time you call
Don't call me at all
Cuz every time you call I hit the red button
The red button
Cuz every time you call I hit the Red Button
The red button
And every time you call
I hit the red button
The red button
Every time you call
Don't call me at all
Cuz every time you call I hit the red button
The red button
