

# The Understanding

Ceremony

The color in the trees started changing  
It got colder inside that house  
You drove through a golden field  
Fell asleep at the wheel of time

And it felt like you'd never come down  
From that place inside your chest  
That feeling may never stop

While your dreams warned you of the bad  
All your problems would never fix  
Nothing was ever right with you

When you try to fall asleep tonight  
Remember who's here with you  
Everyone you ever knew  
Everyone you ever touched

Baby -

Say that it's over
