

# Hope

Ces Cru

Yeah, aha  
Feel good, fucker  
I'm full o' hope  
I'm full o' hope  
Ya know? Ya know!  
C'yo bitch ass!

I'm full of hope, yes, truer than a muthafucka  
I'm full of smoke, yes, cooler than a muthafucka  
Flying through the Midi, the most hated in my city  
Couldn't give a bloody fuck, look up, I keep these feelings wid me  
If a hater marks a hickey, I'm a target come and stick me  
I can pick a chick apart so if she starts to acting picky  
I be rolling up that sticky while I'm throwing up 'em deuces  
Just a slave to the rhythm, neck inside of seven nooses  
I ain't calling him a racists, if you thought so youz a dummy  
Death is chasing me while I pursue this money, kind of funny  
It's a sunny day in Killa City, if you feel it split a Philly  
Skip it, you can feel it with me  
Ces about to kill it (really)  
Let somebody write for me? You's a comedian  
Silly, Wayne signed to Sony homie  
We are not Milly Vanilly  
You are not ready steady, the flow of your energy  
Put O'shea in that KC Tea  
Pop the top on that Hennessy, bruh

Nobody's knockin', I can chill got me feelin' good  
Birds chirpin' sun shinin' got me feelin' good  
I'm ridin' with the windows down got me feelin' good  
My city's ill, can't nothin' stop me from feelin' good  
Huh, y'all got me feelin' good  
The birds chirpin' sun shinin' got me feelin' good  
I'm ridin' with the windows down got me feelin' good  
That's how I feel, can't nothin' stop me from feelin' good

I'm 'bout to take what's mine, I'mma let 'em take it easy  
Take your time I'll give you space and take your place on T.V.  
It's give and take I'm chasin' cheese but that don't make me greedy  
If you don't give a fuck they'll rape you and then take it freely  
Let's celebrate graffiti, fuck it elevate the needy  
If only it was that simple to sell a crate of CD's  
Let's keep it relevant, how well equipped am I  
They debate the creation of my intelligent design  
I tried to told 'em but they didn't listen, It's tougher  
To sit in prison then deal with reality and big decisions  
Bottled yo instinct and slept on intuition  
The reason I Stevie Wondered about your depth of indivision  
My dreams manifest that's divination, I'm overwhelmed with possibility  
You're stressed about yo limitations  
It's all about the mind-state you stay in  
If you don't like it, change the situation, ha, yeah

Nobody's knockin', I can chill got me feelin' good  
Birds chirpin' sun shinin' got me feelin' good  
I'm ridin' with the windows down got me feelin' good  
My city's ill, can't nothin' stop me from feelin' good

Huh, y'all got me feelin' good  
The birds chirpin' sun shinin' got me feelin' good  
I'm ridin' with the windows down got me feelin' good  
That's how I feel, can't nothin' stop me from feelin' good

We hope pushers dispensin' the most dangerous drug  
Tryna give you that pure with each batch we cut up  
The heart pumps to a beat, that's why we trap ova drums  
A lil product we got, until the shipment's all done  
You want to purchase?  
Mayday and Ces, they got about a pound, you heard this?  
Your whiskey glass half empty? Well fuck a sermon  
Better call your bartender till your throat starts hurting  
Until chest burning, the shit's working  
Riding down the district, causing nothing but mischief  
Bass so heavy you flinching, just to get some attention  
Some girls in every direction, thinking the future's ours  
Had to bottle this instant, just to sell it to y'all  
An enemy of the system for putting it in ya system  
Yeah it's stranger than fiction, still we cutting it raw  
Our products floodin' the streets and it's starting to float abroad

Nobody's knockin', I can chill got me feelin' good  
Birds chirpin' sun shinin' got me feelin' good  
I'm ridin' with the windows down got me feelin' good  
My city's ill, can't nothin' stop me from feelin' good  
Huh, y'all got me feelin' good  
The birds chirpin' sun shinin' got me feelin' good  
I'm ridin' with the windows down got me feelin' good  
That's how I feel, can't nothin' stop me from feelin' good
