

Wave After Wave

Cesar Sampson

Dead and gone in a waking dream
We are wandering in a storm
Never asking what it takes
To carve a pathway of our own
I've seen scholars fall for fantasies
Kingdoms vanish in the sand
How can I rely that you will silently
Guide my hand for another dance

Oh I'm catchin' wave after wave
And it's pullin' me deep
Down in the maze can't escape
When you're calling to me
I gotta hang on tight
Hold on
I gotta hold on to the line
Oh oh oh oh

I'm catchin' wave after wave
And it's pullin' me deep
Down in the maze can't escape
When you're calling to me
I gotta hang on tight
Hold on
I gotta hold on to the line
Oh oh oh oh
(Hang on tight)

Hanging on to my beliefs
Deep in silence now and then
Glidin' down a winding road
Up above the pounding rain
In the thunder of disharmony
I never let go of that chord
And I rock and hear it hum with me
Letting me know I'm not alone

Yeah I'm catchin' wave after wave
And it's pullin' me deep
Down in the maze can't escape
When you're calling to me
I gotta hang on tight
Hold on
I gotta hold on to the line
Oh oh oh oh

I'm catchin' wave after wave
And it's pullin' me deep
Down in the maze can't escape
When you're calling to me
I gotta hang on tight
Hold on
I gotta hold on to the line
Oh oh oh oh

I'm catchin' wave after wave
And it's pullin' me deep

Down in the maze can't escape (I'm beggin' please)
When you're calling to me
I gotta hang on tight (Yeah)
Hold on
I gotta hold on to the line
Oh oh oh oh
