

## The Priest Of Lie

CETI

Show me the new fashion way  
I don't believe when they pray  
One breath of truth give me now  
I know you can do it somehow.  
Oh, Lord can't you see  
What your priests can do  
With the poor sheep right now?  
Oh, Lord can't you hear  
What your priests can say  
To the poor people there?  
Hey, men do you thing it's all right  
That you must live on your knees  
I have my credo in my heart  
Cry to go with bright face.  
I'm sure you live in the dark  
You must be completely blind  
So look at this with my eyes.  
Blood, gold and tears mixed up in this world  
How can I live when they say it's right  
Picture what will be later  
If you don't want to fight.
