How'd you do that?
I can't describe the way it makes me feel
It threw me off track

Until your kiss, I had nerves of steel
Your lips just seem to fit me
All this love is makin' me dizzy

I knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined this

I wasn't ready the way you touched me
Scared me half to death
Have mercy

But not enough to let me catch my breath
I dreamed of us together
But this dream is even better

I knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined this

Oh, when we're doin' this
This feeling is overwhelming
When I think it's as good as it gets
It's so good, nothin' can help me

I knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined this

I knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined this
