

# Hello

Chad Brownlee

I felt the space  
When she picked up  
In just one breath  
She said too much

Maybe  
I'm crazy  
Overreacting to some  
Something that happened and I  
Wanted a word, I'd heard

Do you stick every time I park  
Baby I don't wanna leave you in the dark  
Sending you around, no way around  
I didn't spilled it out, but it's just out  
It's just like  
Goodbye  
When she said hello

A million words  
In that first one  
Before she started  
She was done  
She was done

Maybe  
I'm crazy  
Overreacting to some  
Something that happened and I  
Wanted a word, I'd heard

Do you stick every time I park  
Baby I don't wanna leave you in the dark  
Sending you around, no way around  
I didn't spilled it out, but it's just out  
It's just like (It's just like)  
Goodbye... (Goodbye)  
When she said Hello

I got one someone  
She didn't know  
Like she couldn't wait to let me go  
Oh

Maybe  
I'm crazy  
Overreacting to some  
Something that happened and I  
Wanted a word, I'd heard

Do you stick ev'rytime I park  
Baby I don't wanna leave you in the dark  
Something around, no way around  
I didn't spilled it out, but it's just out  
It's just like (It's just like)  
Goodbye... (Goodbye)  
When she said Hello

Oh! She said was hello  
Wish she never said hello  
She said hello  
Oh
