

Just Because

Chad Brownlee

Just about the time I thought I'd seen it all
You walked in pinned my heart up against the wall
I knew it then right there that I was falling for you
I had to have you

In my arms so tight till the hours are threw
Little dance baby me and you
Find a song and get lost inside that grove
We rockin', lets quit talking

I feel like loving up on you
Sounds good baby whatta say its
What two people do
When they can't get enough of a good thing

You and me together
Let's chase that buzz
Ha, just because

Whoa...

Let's get a bottle of wine
Stay up all night
On the bridge looking over those city lights
Get a little too close
Oh, I just might kiss you
I might just want to

I feel like loving up on you
Sounds good baby whatta say its
What two people do
When can't get enough of a good thing

You and me together
Let's chase that buzz
Just because

Stars shining like its meant to be
Baby, that's all the reason that we need
Just because

Whoa...

I feel like loving up on you
Sounds good baby whatta say its
What two people do
When they can't get enough of a good thing

You and me together
Let's chase that buzz
Ha, just because...
