

Build A Home Like A Bee

Chad VanGalen

With all the points of glowing light
And all the panes of mirrored glass
I don't have to look at you
I can stare at your reflection instead
With all the points of glowing light
And all the panes of mirrored glass
I don't have to look at you
I can stare at your reflection instead
Instead cause you don't know me at all
But I'm sitting across from you
Doppler out with underground effects
You don't know me
But I'd like to build us a home in the trees
You don't know me
But I'd like to build us a home in the trees
