

## Sunshine Snare Hits

Chad VanGalen

When the sun is shining on my head  
It makes me feel like a peaceful animal  
I got no problems getting out of bed in time  
When you're by my side

I wanna leave myself behind  
Can I kiss you out in the moonlight

And the birds go flying overhead  
All I can see is the lake in front of me  
I can close my eyes and pretend I'm dead  
I imagine the things that will grow inside of me

I wanna leave myself behind  
Can I kiss you out in the moonlight
