

One for All Time

Chaka Khan

I can still remember, the magic I saw in your eyes, so honest
And so tender, true love with no compromise

All those things I miss, when I reminisce, about you baby, um h
m

Why can't we go back in time, when I was your and you where min
e,

Love is special meant to be, eternally our love is one for all
time

(Um, time, mm) this time only

How is it I see you, in every strangers face, I don't wanna see
d you,

But my stubborn heart keeps going, and I just can't erase

Oh oh oh oh all these things I miss when I remenise, about you
boy,

Bet you didn't know, how much I love ya, won't mean to show ya
baby

Why can't we go back in time, when I was your and you where min
e,

Love is special meant to be, eternally our love is one for all
time

(Um, time, mm) this time only

I got to hear your conversation, intelligent debating, baby tha
t

Would move me, they way you, make me fell so special, how could
You forget that, you where made for me, you where made for me

Why can't we go back in time, when I was your and you where min
e,

Love is special meant to be, eternally our love is one for all
time

(Um, time, mm) this time only

Skatting, one for all time, mine,

did you know there's a love, umm,

our love, oh la la la la la,

the greatest love, of all time,

I love ya babe,

the greatest love of all time, I love ya babe
