

## What You Did

Chaka Khan

Any little spark will make a fire  
Any little fib will make a liar  
I'll tell you more if you enquire  
About the things that I desire

'Cause when you open wide  
The inevitable steps inside  
Take it in stride  
'Cause nobody can do  
Like you did  
What you did  
Like you did

Been so long, I can't see straight  
No, no fun to anticipate  
Give it on up, don't make me wait  
Wait too long, 't'will be too late

Listen real close, 'cause I can't lie  
It's difficult to satisfy  
These feelings I just can't deny  
With time they'll just intensify
