

# I Mean That There

Chamillonaire

Yeah uh-huh, Chamillitary mayn, Chamillitary mayn  
And I mean that there, and I mean that there  
And I mean that there, yeah-yeah  
Yeah-yeah-yeah, and I mean that there  
And I mean that there, and I mean that there yeah-yeah

Not a angel I'm filled with anger, to the industry I'm a danger  
They make friends with dick suckers, said they tell you that I'm a stranger  
Kick some dirt on my name, but really how can I blame you  
I'm the next to blow, so they put me on punishment for bad behavior  
They said I should of went major, but I'm a procrastinator  
I get the job done playa, but I'm busy now ask me later  
Stay with a calculator, my lawyer get a grand retainer  
Why cause I'm a better business man, than your average hater  
But now I wanna ask a favor, don't talk to me like I'm stupid  
Got no love for you haters, so send that message to cupid  
Give a shout out to Who Kid, (why give a shout out to Who Kid)  
Cause I'm wearing something, that match the size of a G-Unit shoe kid  
What's that a nine stupid, you do the math why  
I tried to be nice to the dyke, but that was my last try  
And since it seems the industry, is infatuated with the bad guy  
I'm spitting and pissing on gimmick niggaz, when they pass by  
Get mad that I get green, you dealing with the Hulk  
I put my anger in the music, nigga this is the result  
Did a hundred thousand independent, now I move c.d.'s in bulk  
Check on Chamillonaire.com, my fan base is a cult  
I'm that nigga that'll spot you, see you in the streets and box you  
You acting like you a problem, I bet I do something bout you  
Run the South when it come to making mix tapes, I'm a monster  
Napster crashed, but I wanna give a special shout out to Kazaa  
Long as Lil' Jon, and Manny keep making beats  
Chamillonaire gon be a ghetto millionaire, in these streets  
I speak my mind, so stop acting so sentimental  
You soft, if you go to jail you'll get used for a prison pillow  
You scared, shooting slugs behind the bushes and not a brick  
Like a bush is gon protect you, you know who you dealing with  
Chamillitary hideous mood, and I pity the fool  
If I walk in I bet every sissy, in the city'd move  
Ain't got to walk a city for food, like Diddy did dude  
If you hungry for drama, I'll see that my Semi get chewed  
Give me the tool I'm from Texas, but I ain't no damn bammer  
Mess with Killa Mike, Ron Thomas that Quo down in Atlanta  
Lil' Flip and my man Banner, come here and get man handled  
By Slim, E.S.G., OG Ron C fix your damn channel  
If you think we all right thurr, and speaking with bad grammar  
I know Bun B, Lil' O and S.U.C. ain't no damn bammers  
Rasaq ain't no damn bammer, Play-N-Skillz ain't no damn bammers  
The clip in the hand jammer, to use it for a damn hammer  
Hit you on top of your head, and leave humps like a tan camel  
Keep a couch with a full house, like Dan Tanner  
That's plenty of bricks, that's plenty of chips  
There's plenty of fine groupies, there's plenty of chicks  
Like dominatrix chicks, there's plenty of whips  
So you bricks can do a flip, off the end of my dick  
Get off the end of my tip, nigga you a crash test dummy  
You album dropped you smile and frown, after the math get funny  
I'm getting all my publishing, never had that kept from me

I'm buying Color Changin' vehicles, with my ass cap money  
Promises that they gave you, made you feel like you major  
Navigator and two-way pager, they gave you then made you  
Go lie about how they paid you, and never will play you  
You's a puppet go get a refund, I think that they played you  
You album was whack huh, it's still on the rack huh  
Repo man hopped in your vehicle, they took it back huh  
You go get a dagger, then hop in a cab huh  
You looking for a A&R or CEO, you can stab huh  
Did a hundred thousand independent, ain't really nothing to prove  
I make a million disappear, quicker than Nelly with jewels  
See the industry wouldn't listen, so I stopped being a humble guy  
Now I'm the come get it, if you ready to royal rumble guy

And I mean that there, and I mean that there  
And I mean that there yeah, (throw you out the game)
