

# Capture the Moon

Champaign

I've slept with Mystics  
And lunched with Saints, yes, I have  
Conversed with Rebels, yeah  
And laughed with pain

I've danced with Artists  
And I've played for Kings  
Sat with Jews that make the news  
That love to sing

Looking for another situation  
Over matter, over mind  
This is my invitation  
To another place, another time

Capture the moon tonight  
And take the stars and tie up the light  
I'm gonna capture the moon tonight  
And steal the night away

I've shared with Demons  
And drank with Sheiks, yes, I have  
And sometimes I'm wild, yeah  
And sometimes I'm mildly asleep

I've danced with Artists  
And I've played for Kings  
Sat with Jews that make the news  
That love to sing

I'm looking for another situation  
Over matter, over mind  
This is my invitation  
To another place, another time

Capture the moon tonight  
And take the stars and tie up the light  
We're gonna capture the moon tonight  
And steal the night away, yeah

Capture the moon tonight  
And take the stars and tie up the light  
We're gonna capture the moon tonight  
And steal the night away, hey  
Hey, hey

Yeah!

Capture the moon tonight  
And take the stars and tie up the light  
We're gonna capture the moon tonight  
And steal the night away, yeah

Capture the moon tonight  
(We'll capture the moon)  
And take the stars and tie up the light  
(Come with me, my baby)

We're gonna capture the moon tonight  
And steal the night away, yeah...
