

If One More Morning

Champaign

Mmm-mmm...

Touch her body light
And let my eyes delight in her
Pull the covers loose and wake her
Now give it, give it just one more
Warmer than before
And don't you let it slip away
It was made for you

If one more morning, if one more kiss
If one more feeling could feel like this
But it never last that long, baby
It only keeps me needing more and more and more, yeah

Baby

Honeysuckle rose
And in the morning shine it grows
Pull the covers loose and whisper
Now give it, give it just one more
Warmer than before
And don't you let it slip away
It was made for you

If one more morning, if one more kiss
If one more feeling could feel like this
But it never last that long, baby
It only keeps me needing more and more and more, yeah

Yeah, come on, baby

Mmm...

Now give it, give it just one more
Warmer than before, oh, baby
And don't you let it slip away
It was made for you

If one more morning, if one more kiss
If one more feeling could feel like this
But it never last that long, girl
It only keeps me needing more and more and more

More, baby

More, girl

Ooh...

If one more morning, say, if one more kiss, one more
If one more feeling could feel like this
I'd be so happy

If one more morning, tell you if one more kiss
I'm tryin' to say
If one more feeling could feel like this...
