

Cold

Chance Peña

I've been down and lonesome since you've been gone
I've been up all night singing old love songs
'Bout how when you're by my side nothing can go wrong
I miss the warmth of your arms, don't be gone too long

All the time I've wasted on the grindstone
Countless hours chasing what I can't hold
Love of mine this house ain't a home
These four walls, without you, it's just cold

Know while you're away I will hold it down
There's peace in this love that we have found
And though there's miles between us we can cover ground
Ain't no valley low or mountain high that could stop us now

All the time I've wasted on the grindstone
Countless hours chasing what I can't hold
Love of mine this house ain't a home
These four walls, without you, it's just cold
