

# Panicked

Chance Peña

Can't stand the thought of you  
Tell me what happened to  
Our love's serenity  
I drop the ball with everything

My dear, you animal  
Took all I'd asked you for  
And hung it over my head  
Said you wished me better dead

So I'll just protect myself  
I won't ask for no one's help  
I'm panicked, I'm panicked  
I got me baby no one else

I love you  
Let me leave  
You baby let me go

I'm sorry  
That I couldn't  
I couldn't make you whole

I love you  
Let me leave you  
Let me go  
I'm sorry  
That I couldn't  
I couldn't make you whole

Why can't I let you be  
You're stuck in front of me  
I try to let it go  
Forgiveness keeps evading me

If time would pardon us  
Bring back our hearts from dust  
Like they were when love was a dream  
Something we could hope to see

So I'll just protect myself  
I won't ask for no one's help  
I'm panicked, I'm panicked  
I got me baby no one else

I love you  
Let me leave  
You baby let me go

I'm sorry  
That I couldn't  
I couldn't make you whole

I love you  
Let me leave you  
Let me go  
I'm sorry

That I couldn't  
I couldn't make you whole
