

## Space & Time

Chance the Rapper

I grew tall overnight  
I woke up one day a man  
Walked back by the crib where we would one day raise a fam  
I'd been around the world  
Done all the things I can  
I'm a giant now, I can't wait 'til you see how big I am

Space and time go wherever you follow  
Can't waste your tomorrows  
This mission Apollo  
Since this time is borrowed  
I'll be back tomorrow  
Just look to the stars if you ever feel your heart broke

Shipwrecked on an isle about a mile outside the moon  
I went to war  
Some Emperor Jones  
I took the throne on distant shores  
I grew up fast  
I bumped my head, I hit the door  
I jumped the porch, I upped the score  
My sweet Penelope, that's for sure  
I jumped the gun, I took the bait  
Those sirens came and serenaded me to sleep  
They whispered songs  
I sang along, I've fallen deep  
I took my time under the stars out of place  
I was gone, I would hope that you'd wait  
But I know that

Space and time go wherever you follow  
Can't waste your tomorrows  
This mission Apollo  
So if time is borrowed  
I'll be back tomorrow  
Just look to the stars if you ever feel your heart broke

What if I changed my ways? (What if I changed my ways?)  
Would you be less afraid? (Would you be less afraid?)  
Was lost but I found my way (Was lost but I found my way)  
I needed the space to grow (I needed the space to grow)  
If you love me, let me be (If you love me, set me free)

Love me, love me  
Love me, love me (I needed the space to grow)  
Love me, love me, love me (Love me)  
Love me (Love me)  
Love (I needed the space to grow)

On my face are battle scars that surely scare a child  
I've been gone a while  
And I'm not so proud  
If there's still some space for me  
I was hoping I could fit  
You said, "It's too late for that  
But you should see how big she is"

'Cause space and time go whether or not you call home  
Don't waste your sorrows  
We'll be in Chicago  
Know this time is borrowed  
Don't waste my tomorrows  
Go back to the stars, that was always where your heart was

But what if I changed my ways? (What if I changed my ways?)  
Would you be less afraid? (Would you be less afraid?)  
Was lost but I found my way (Was lost but I found my way)  
I just needed the space to grow (I needed the space to grow)  
If you love me, set me free (If you love me, set me free)

Love me, love me  
Love me, love me (I needed the space to grow)  
Love me, love me, love me (Love me)  
Love me (Love me)  
Love (I needed the space to grow)
