

# Dancing Alone

Chancellor

She's dancing alone  
In the dark by herself  
Out on the floor  
Like there's nobody else  
Under the light  
While she's under a spell  
I had to slide  
Cause I couldn't waste my time

As I walked by  
Then we locked eyes on the floor  
Left right  
Let the beat rock out the door  
Don't stop  
Cause you can't hide anymore  
Lights down  
But she don't mind in the dark  
Nights out  
Where she blow lines into dust  
'Til she's feeling no emotion

She's dancing alone  
In the dark  
She's dancing alone  
Dancing alone baby  
And I wonder why  
She's dancing alone  
Dancing alone baby

She's tearing apart  
Fire sparks when she dance  
Outshining the dark  
Like a star heaven's sent  
Lost in the crowd  
Every hour we spent  
We've come too far  
Now won't you come and take my hand

So I walked by  
Again we locked eyes on the floor  
Left right  
Let the beat rock out the door  
Don't stop  
Cause you can't hide anymore  
Lights down  
But she don't mind in the dark  
Nights out  
Where she blow lines into dust  
Don't you play with my emotions

She's dancing alone  
In the dark  
She's dancing alone  
Dancing alone baby  
And I wonder why  
She's dancing alone  
Dancing alone baby

She's dancing (dancing)  
Dancing alone  
She's dancing (dancing)  
Dancing  
She's dancing (dancing)  
Dancing alone  
She's dancing (dancing)  
Dancing

She's dancing (dancing)  
Dancing alone  
She's dancing (dancing)  
Dancing  
She's dancing (dancing)  
Dancing alone  
She's dancing (dancing)  
Dancing  
She's dancing alone  
(Let's dance)

She's dancing alone  
She's dancing alone
