

# Keep Spinning

Chanel West Coast

People walking like they think they important,  
I'm not supporting,  
They showing they true colours,  
When they talking I'm imorting,  
It's exhausting that I'm caught in the moment  
When rappers flowin' like other rappers,  
And every song sound the fucking same,  
People think they know me  
From shows on they TV my flows  
They don't Believe me  
Some hoes they wanna be me  
Some hoes they tryna see me,  
Push buttons like it was serious  
Stop fronting I'm bout my  
Keeweed the screens for  
All you lanes caught up in a jungle  
The world the way we struggle  
The world sometimes we juggle  
Sometimes we need to huddle  
Sometimes we need to cuddle  
My rhymes that be my hustle  
Bout brands like I was rustle  
This the start of my campaign

This world keep on spinnin  
This world keep on spinnin  
This world keep on spinnin  
Round and round we go [x2]

Shootin' for the stars like a fucking paparazzi,  
Can't wait to loan my Lennon's at the local vavazachi,  
Driving fancy cars but still see me at the swap meet  
Pullin up with jaws of that sticky icky bomb weat  
(Bomb weat)  
And I gonna do what I gotta,  
Gamble on myself navada,  
Stappin for the wealth I wanna,  
I'm moving so stealth piranha,  
I got all these dudes double taking,  
Like a two for one in the cali sun stay baking,  
All these fucking rules I could load a gun stay breaking,  
I will never lose and I'll never run I'm waiting

This world keep on spinnin  
This world keep on spinnin  
This world keep on spinnin  
Round and round we go [x2]

Some people wanna talk about ya,  
Some people wanna try and doubt ya,  
I got myself here with out ya,  
While the world keeps on spinnin'  
Nothing but love around me and all the hate that's  
Trying to surround me nothing will ever stop me  
And the world keeps spinnin  
And the world keeps spinnin  
(World keeps spinnin)

This world keep on spinnin  
This world keep on spinnin  
This world keep on spinnin  
Round and round we go [x2]
