

Waste My Time

Chanel West Coast

I used to listen to friends and let 'em get in my head
And now I'm on my own
I could sit and pretend like we ain't close to the end
But this is what I want
I been sippin' on my liquor on the rocks
Couple more and I might let you take it off
I just wanna fuck wit' you right now
Like it's all for somethin' when it's really nothin'

I know that this shit is toxic
But I do it anyway
I'm addicted to the feeling
I don't like to play it safe

Waste my time, I got time
Pick your poison and I'll pick mine
Break my heart, do or die
Pick your poison and I'll pick mine
Come and waste my time

Waste my time, yeah
I'll let you waste my time, yeah
Come and waste my time tonight

Two shots at a time till we wash away, yeah
You shine like the moon, I let you lead the way, yeah
We been on the west side, tryna kill time
Takin' long drives home
Past the Hollywood sign in the limelight
I'll be wit' you when I get time off

I know that this shit is toxic
But I do it anyway
I'm addicted to the feeling
I don't like to play it safe

Waste my time, I got time
Pick your poison and I'll pick mine
Break my heart, do or die
Pick your poison and I'll pick mine
Come and waste my time

Waste my time, yeah
I'll let you waste my time, yeah
Come and waste my time tonight

Waste my time
Waste my time
Waste my time
