

Where We Started

Chanel West Coast

K.E. on the track

You playin' games way too often
You call names, now you callin'
All that change, we saw the fall in
Wish we could go back where we started
Wishin' we could go back where we started
Wish we could go back where we started

Yellin' at me, I'm yellin' at you (At you)
It's another day in the zoo, two animals fightin' over dominance
Fightin' till we turn blue
It's astonishin' how you go and do what you do
And act like you did nothing wrong but you always guilty (Always)
I stay holdin' on even though it kills me
These nights are gettin' longer, you out there in the city
I'm at the studio late while you out grabbin' titties
I don't know why I try and change you, why I stay faithful
While you stay lyin' and ungrateful
I always got my plate full and you stay takin' from it
You started actin' hateful, runinin' every moment
This ain't the man I love, who is this, I don't know him

You playin' games way too often
You call names, now you callin'
All that change, we saw the fall in
Wish we could go back where we started
Wishin' we could go back where we started
Wish we could go back where we started

Is this really you, are true colors showin'? (Showin'?)
I wanna go back, but where are we goin'? (Where?)
When I met you I was hopeless, we got lost in the moment
The love was growin', everybody noticed (Mmm-hmm)
We had a friendship they all wanted, it was endless romance
We used to laugh and hold hands, I taught you how to slow dance
Used to watch the sun go down when we had no plans
Then we drifted and we folded, now there's almost no chance
You so gifted at twistin' shit and playin' games
I just miss the old you, I wish you stayed the same
Crazy how they change and start actin' heartless
Even through the pain I wanna pause and restart it

You playin' games way too often
You call names, now you callin'
All that change, we saw the fall in
Wish we could go back where we started
Wishin' we could go back where we started
Wish we could go back where we started
