I'm a fucking woman
And I'm fucking beautiful
God here I am
We're fucking women
And we're fucking beautiful

Be be beware of that beauty
She's got a lot of fanatics
Know yourself, bitch
You can see them all in HD

Oh I wanna look like you
Tell me tell me, you must be happy, right?
If I disappear this way and they end up loving me for it
I would gladly die right now, beautifully

This isn't how I should look, DaVinci
Make me look just a little bit prettier
Add some contrast in there, too
I wanna show the world how beautiful I am

Look at this
Look at this
Look at this
Look at this, it's a bit sad

Give my skin a bit more glow
Don't mess with a woman in her prime, hey
Did you find the goddess in the bathroom?
If you did, better catch her

"Chanmina is so pretty nowadays"
I'll never forget that storm
Back then I was only seventeen
Remember what you said to me

You can't be beautiful
You can't be famous
An ugly bitch like you shouldn't be a singer
As my mind grew insane back then, my talent blossomed
Every happiness and unhappiness I went through was unordinary

Have you ever seen the real thing?
Eros of knowledge and experience
Do you still have it in you?
Women, we're all insane

Look at this
Look at this
Look at this
Look at this, it's a bit sad

Give my skin a bit more glow
Don't mess with a woman in her prime, hey
Did you find the goddess in the bathroom?
If you did, better catch her

Can you hear me Mina are you the beauty
Say July you are the true fxxing beauty
Be surprised, I'm not what you predicted
Polish me and I'm a diamond, beautiful

Pessimistic? No aesthetical (Is it scary to not have an example?)

Polish me and I'm a diamond, beautiful (Then you should become the role model)

Live and enchant right now (Scared forever, what are you gonna do?)

You are the diamond, beautiful (Now go and help her out)

I'm a fucking woman

And I'm fucking beautiful

God here I am

We're fucking women

And we're fucking beautiful
