

Amazing

Chanté Moore

Let me count the ways that I feel about you
When you come across my mind
I just can't explain what I feel about you
It happens to me every time
There's a reason for the look on my face
You are the reason that I feel this way
Finally found the word to identify
What you're doing in my life, it's amazing

Just thought I'd let you know
That I go crazy whenever you're around me
It's plain and simple
I just can't get over your amazing love to me

When I could be down in a silent mood
I count on you to bring me out
You're my steady course in a hurricane
I have no doubt
You give me love without a cloud in the sky
I only wanna stay in love with you and I
If I could put it into a single phrase
I would have to say that you're amazing

Just thought I'd let you know
That I go crazy whenever you're around me
It's plain and simple
I just can't get over your amazing love to me

I hope and I pray
That you continue to take all of my cares all away
And I'll continue to say
You're amazing

Just thought I'd let you know
That I go crazy whenever you're around me
It's plain and simple
I just can't get over your amazing love to me
