

Put It On Fate

Chanté Moore

Uh-huh, uh-huh, ohhh

I know myself by heart and soul
And everything in my control
There's not a tree that ever stands
That couldn't break and doesn't bend

Just like a bird on broken wing
I couldn't fly and wouldn't sing
Troubles weighing down on me
Making my life a misery

But when it gets too heavy for me to carry it alone

I gotta put it on fate, every day!
Never let nothing hinder my surrender
When I lay my burden down
(Gotta put it on fate)
'Cause when I put it on fate, everything's changed
Now I feel so inspired, lifted higher
Faith is working out
(Gotta put it on fate)

And when I had it up to here
With all the pain and all the fear
Just when I think I'm not that strong
I find the strength to carry on, huh

But like a bird in a gilded cage
My only dream, to fly away
And troubles weighing down on me
Making my life a misery, uh

But when it gets too heavy for me to carry it alone

I gotta put it on fate
(Fate)
Every day
(Day)
Never let nothing hinder my surrender
When I lay my burden down
(Gotta put it on fate)
'Cause when I put it on fate
(Fate)
Everything's changed
(Changed)
And now I feel so inspired, lifted higher
Faith is working out
(Gotta put it on fate)

(Gotta put it, gotta put it on)
'Cause it'll only make you stronger, put it on
(Gotta put it, gotta put it on)
Don't have to hold it any longer, put it on
(Gotta put it, gotta put it on)
All of your burdens and all your problems, put it on
(Gotta put it, gotta put it on)

I know that only faith can solve it!

Put it on fate

(Fate)

Every day

(Day)

Never let nothing hinder my surrender

(Oh, my surrender!)

When I lay my burden down

(Gotta put it on fate)

'Cause when I put it on fate

(Fate)

Everything's changed

(Changed)

Now I feel so inspired, lifted higher

(Oh, lifted higher!)

Faith is working out

(Gotta put it on fate)

Gotta put it on fate... huh

(Fate)

I gotta put it on fate... uh-huh

(Gotta put it on fate)

I gotta put it on fate

(Fate)

Hey!
