

Thank You for the Journey

Chanté Moore

Looking at my reflection I can see the rapping
Through the fire the ups and downs beginning and end
Saying grace has always been know who my faith is in
It's all about the journey hey
It's all about the journey yay
It's all about the tears
All about the fears hey
All about everything that got me here
It's about the journey
I'm so grateful
Thank you for the journey
This is my gratitude
Thank you for taking this journey
