

Tonight

Chanté Moore

When you touch me, boy, I get so excited
I can't resist, baby, I just can not hide it
I'll wear some lingerie, come on, boy, let's play
You know I know how to really satisfy

Baby, I (I) love you
That's why tonight I made an evening for two
That's why I'm gonna love you down
All the way down
And make sweet love to you all night long

Baby, tonight (tonight)
I'm gonna get you in the mood
(Get you in the mood, boy)
Tonight, babe, I'll make sweet love to you
And when you want me, I'm the only one who love you all night long
Let me love all your hurt away, babe

When you get home, I'll be up stairs right waiting
I can't help it, wanting love more and more
When you do the things you do
You know
I'm yours, boy

Baby, (I) I love you
That's why tonight I made this special evening for two
I'm gonna love you down
All the way down
And make sweet love to you all night long

Tonight (tonight) there'll be no limits for our love, baby
I'm gonna do you right, baby
And when you need me, you just call me, boy, and I'll be right
there for you, baby
Don't you want the love I'm giving?
Baby, don't you see I'm living just for your love and your heart?
