

Where were we when we first got in bed
Stay right there, I wanna be right down forever
In the morning, I wanna tell you again
On my knees now just praying you'll get better
Where you go, I've sinned through the sky
We've been longing to say our goodbye
Something in the water that appealed to ya
Something I should feel, I shouldn't like that

You're doing it for me, but you were shapeshifting
You were shapeshifting, yeah yeah

You showed me how to love myself, you didn't even know
You showed me how to hate myself, you didn't even know
You showed me how to love myself, I couldn't even know
You showed me how to hurt myself if I wanted to

Yeah, I'm sorry but you fucked me up forever
Smell of rats till I play with game forever
Where you going, the sand through the hills
On my knees, said I feel that you get well

Because of the flow of the water, can I have it, oh?
Can I have it, oh?

You showed me how to love myself, you didn't even know
You showed me how to hate myself, you didn't even know
You showed me how to love myself, I couldn't even know
You showed me how to hurt myself if I wanted to

You showed me how to love myself, you didn't even know
You showed me how to hate myself, you didn't even know
You showed me how to love myself, I couldn't even know
You showed me how to hurt myself if I wanted to

You showed me how to love myself, you didn't even know
You showed me how to hate myself, you didn't even know
You showed me how to love myself, I couldn't even know
You showed me how to hurt myself if I wanted to
