

Working alot everyday
Need a lot money
The prospects of humanity
Maybe I'm out of breath
And be afraid of death
The prospects of immortality

Lock me in the dark
And turn off my heart
Take me in the dark
Take me and bring me back

Frozen it's my way
Take me, take me away
Take me away, break me another time
Well I want the same life
Pay me one more time this price
Wake me up another time
That way I'll live eternal

Conferring killing less
Just a touch of my mess
The feeling of eternal
Frozen leave my way
Save me away
Wave me up high in the day

Lock me in the dark
And turn off my heart
Take me in the dark
Take me and bring me back

Frozen it's my way
Take me take me away
Take me away break me another time
Well I want the same life
Pay me one more time this price
Wake me up another time
That way I'll live eternal

Take me away (wake me up another time)
