

# Sex In Hell

Chauseum

Come on my sweet lover  
It's time to be submissive  
I'll say when it's over  
I'll tell you how to tease  
I want you to make me feel this  
Power that makes you sick  
Cause I must confess  
You cannot be free

Cause you have to love me  
So do your best

Come here, touch me  
And give me what I need  
All your moves must prove to me  
I'm the only one that you want to feel  
Please can't you hurry?  
With your hands so freezing

You won't refuse  
Don't disappoint me

I can't deny  
I need this to exist  
It's like a drug  
Your weakness is my pill  
That makes me feel like a God

Nobody can be your savior  
There's only you and me  
So take me higher  
And listen to me breathe  
Do you think of something else?  
Ok, but increase the speed

Don't despise my flame  
Despite your faith

I can't deny  
I need this to exist  
It's like a drug  
Your weakness is my pill  
That makes me feel like a God

(Help me)  
I can't deny  
I need this to exist  
(Save me from my hell)  
It's like a drug, (save me)  
Your weakness is my pill  
That makes me feel like a God

Save me
