

## Devil's Music

Chaparelle

How come that devil's music sounds like heaven to me?  
What does the underworld have that I need?  
Them neon lights are flashin', good Lord, I saw the light  
How come that devil's music feels so goddamn right?

I can feel it in my body, you can hear it in my voice  
I don't know about possession, but I never had a choice  
Only the lonely are crying on the floor  
But to get the people moving's what that devil's music's for

Ooh  
Ooh  
Ooh

There's a spirit in the dance hall, there's a line out the door  
Another round of holy water until we can't take no more  
That's what that devil's music's for

How come that devil's music sounds like heaven to me?  
How come that devil's music sounds like heaven to me?  
How come that devil's music sounds like heaven to me?  
How come that devil's music sounds like heaven?
