# Keep U 4ever

**Charice**

I've seen a lot of places before you
I've been with many people
They all offered everything a person would want
But I want you, I always want you

Can I keep you forever?
Can I keep you forever?
I will stay, I will never leave you
I will keep you, keep you forever
Oohhh...

They say a love like this will never ever exist
But hey I guess they don't know true love
Oohhh... it feels good to be with you
Oohhh... I will always want you

Can I keep you forever?
Can I keep you forever?
I will stay, I will never leave you
I will keep you, keep you forever
(I will keep you, keep you forever)

I will keep, keep you forever
I will keep, keep you forever
I will keep, keep you forever
