

## Keep U 4ever

Charice

I've seen a lot of places before you  
I've been with many people  
They all offered everything a person would want  
But I want you, I always want you

Can I keep you forever?  
Can I keep you forever?  
I will stay, I will never leave you  
I will keep you, keep you forever  
Oohhh...

They say a love like this will never ever exist  
But hey I guess they don't know true love  
Oohhh... it feels good to be with you  
Oohhh... I will always want you

Can I keep you forever?  
Can I keep you forever?  
I will stay, I will never leave you  
I will keep you, keep you forever  
(I will keep you, keep you forever)

I will keep, keep you forever  
I will keep, keep you forever  
I will keep, keep you forever
