## **Keep U 4ever**

I've seen a lot of places before you I've been with many people They all offered everything a person would want But I want you, I always want you

Can I keep you forever? Can I keep you forever? I will stay, I will never leave you I will keep you, keep you forever Oohhh...

They say a love like this will never ever exist But hey I guess they don't know true love Oohhh... it feels good to be with you Oohhh... I will always want you

Can I keep you forever? Can I keep you forever? I will stay, I will never leave you I will keep you, keep you forever (I will keep you, keep you forever)

I will keep, keep you forever I will keep, keep you forever I will keep, keep you forever
