

Let Me Be Your First Love

Charles Aznavour

Let me be your first love
You are young and sweet as spring
Though I've loved before
I've never known my heart to sing a song like this
At the thought of a kiss
Come with me
Let me be your first love

Love is so new to you
And you're afraid to give your heart
But I'd give my world
This isn't something I would start
Unless I knew I would want only you
Trust in me
Let me be your first love

Too young to understand the love I bring to you
Give me the chance to prove that it is true
And I can if you will let me be your first love
Just put your hand in mine then
I can promise you
You'll never want for love again
Forevermore only you I'll adore
Darling, stay
Let me be your first love
Darling, stay
Let me be your first love

(Let me be your first love)
(Let me be your first love)
(Let me be your first love)
(Let me be your first love)
