

# Weirdo

Charles Hamilton

They keep telling me I'm crazy  
I honestly don't believe I'm crazy  
Maybe I think too much but...  
Crazy? Naahh

I woke up in the body of a video game  
Is that really so strange? Do you really know my name?  
I'm the picture of imagination coming to life  
Am I gonna do right? Am I running tonight?  
(Where the hell am I going?)

You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you  
You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you

I fall asleep to the sound of your every last fear  
I look at every last tear, and I say sit your heavy ass here  
I don't cry cause my body feels like it's too dry  
Maybe I am too high. I think I need a new high (new high)

You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you  
You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you

Move if you wanna, move, ya'll gotta  
Do ya'll ride in the groove I'm outta?  
I do. Surf on the track, blurting the facts  
While you hurting the rap  
No pain, no gain, no gain  
If you can't see broke like Rogaine  
Something like a guitar with no gain  
I'm way too smooth for distortion  
You can call me your music catortionist  
I make it fit, flex, this next  
It is in just laps of distress  
I have fun thinking outside the box  
About time you watch me ride the clock  
A few seconds left and I cruise like a jet  
My music's the best, something that you never get

You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you  
You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you  
You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you  
You must think I'm some kind of weirdo, I bet you do,  
Yes you do, only makes sense when I'm next to you
